

# Make your own green man mask

To celebrate all the nature at Hautbois, have a go at making your own Green Man Mask. Remember these are supposed to celebrate nature so be careful when choosing your leaves- don't pull them off the trees!

**1**

Collect some leaves from outside and use the glue to cover your mask with them

**2**

Hole punch each side of the mask

**3**

Use the elastic to thread through the holes

**4**

Secure the elastic with a simple knot on each side
