

# Pinecone bird feeders

## You will need:

1

Tie a piece of string or ribbon around the end of the pine cone

2

In the mixing bowl, soften the lard using your fingers until it has melted into a paste.

3

Add in the bird seeds and mix until it is all stuck to the lard.

4

Now for the messy bit! Scoop up some of the mixture and stick it to your pinecone.

5

When you have pushed it into the gaps, hang it up to harden. Hang it outside when it is dry.

6

Now that it is hung up, the birds can enjoy it. Why not keep a diary of all the birds that visit?
